OUTLINE
Welcome
README.md
02. Middleware > README.md
1 - Every route function is a middleware.
2 - app.get('/', function(req, res) { res.send('Hello Sir') });
3 - function : route function
4
5 - app.use(express.json());
6 - This is a built-in middleware function in Express.
7 - It parses incoming requests with JSON payloads and is based on body-parser.
