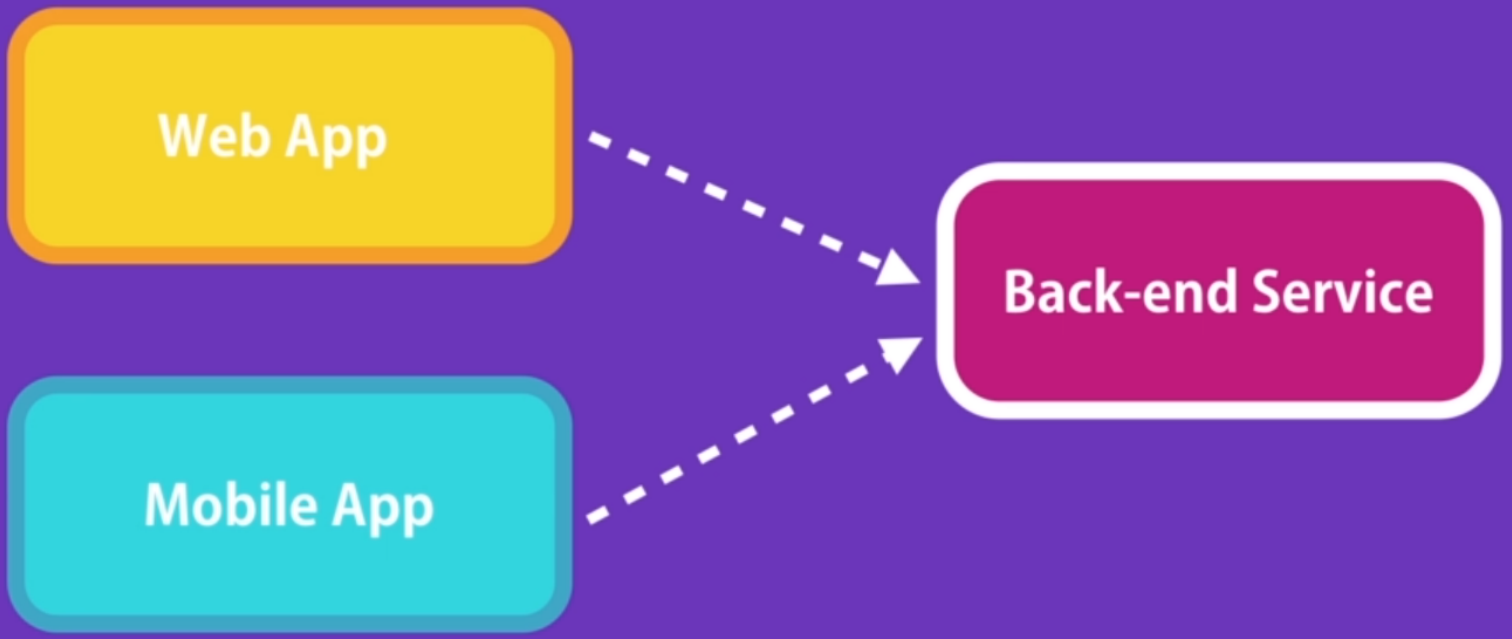
We often use Node to

build back-end services

Udemy

Application Programming Interface

Udemy



Udemy

Highly-scalable, data-intensive

and real-time apps

Udemy

NODE APP

Built twice as fast with fewer people

33% fewer lines of code

40% fewer files

2x request/sec

35% faster response time

Udemy

- Great for prototyping and agile development
- Superfast and highly scalable
- JavaScript everywhere
- Cleaner and more consistent codebase
- Large ecosystem of open-source libs
